## NO SUCCESSOR APPOINTED

Board Will not Decide This  
Matter for Some Time  
to Come

By a unanimous vote the state board of normal regents voted in executive session at the La Crosse club this morning not to recede from its demand for the resignation of President Pray of the Stevens Point normal school.

In the opinion of the board Mr. Pray's defense of himself at the public hearing last night did not change the aspect of the case in the least. The circumstances leading up to the request for his resignation were sufficient in the opinion of the regents to warrant a change in the management of the school. President Pray's faults are temperamental, in their opinion, and hence cannot be remedied. No action is to be taken on a successor for some time.

## Pray's Defense.

President Pray of the Stevens Point normal school appeared before the state board of normal regents at the La Crosse club last night and in an open session made a plea against the demand of the board for his resignation.

The board of regents last night gave out a statement to the press reciting the reasons for the request for the resignation of President Pray. The statement in part with the four reasons, follows:

President T. B. Pray of the Stevens Point normal school, having requested to be informed specifically as to the reasons which prompted the board to suggest his retirement from the presidency of the normal school, it is thought proper at this time to make a somewhat general, rather than specific statement of some of the reasons. Briefly stated they are:

1. The man who is now filling that position is not, in the opinion of the board, a vigorous and efficient administrative officer.

2. He is not, in the opinion of the board, an enthusiastic and inspiring teacher and educational leader.

3. We believe these defects are temperamental and it is therefore practically impossible for him to overcome them.

4. We believe the Stevens Point normal school is not now securing the best results obtainable, all things considered."

The statement continues with a general complaint against President Pray saying a change was contemplated several years ago. "Graduates and others have repeatedly stated that the president does not properly prepare himself and his classes and keep himself well informed regarding the work of the teachers and pupils."

After the reading of the statement by Secretary Rockwood Mr. Pray was given the floor. From manuscript.

"DOC" WESTON  
SAVED A TRUNKLa Crosse Specialist Flies  
With Wife and Baggage  
in his Auto

Dr. Frank R. Weston, wife and child escaped from the San Francisco disaster to Berkeley in their automobile with two trunks full of clothes and personal valuables, according to word received here by relatives.

All of the rest of their belongings including Dr. Weston's office equipment and instruments were swept away by the fire which followed close after them as they sped away in their car toward the Berkeley hills. Dr. Weston had been located in San Francisco but a few months and had built up a splendid business.

LA CROSSE GROOM LOST  
ALL BUT YOUNG BRIDE

Just nicely established at house-keeping after their honeymoon A. Wilde, son of J. V. Wilde of 1222 State street, and his bride, lost their all in the San Francisco fire which followed the earthquake. They are now on their way to this city and are expected to arrive here within a day or two.

Wilde but recently completed three years' service with the army in the Philippines. Returning to San Francisco he married a young lady he met there, secured employment and furnished a pleasant little home. In a couple of hours last Wednesday morning the young couple saw their home and all its contents swept away. They will probably locate in this city.

INDICTED FOR FRAUD

CHICAGO, April 27.—Former Judge Abner Smith, president of the defunct Bank of America; Jerome V. Pierce, cashier; Gustav F. Sorrow and F. E. Creelman, were indicted today in connection with the recent failure of the bank. It is understood conspiracy to defraud is the principal charge.

DRAINED OLD BEER KEGS  
TO QUENCH HIS THIRST

With a thirst for intoxicants which once provoked knows no quenching George Sifer, a resident of Mindoro, took to draining beer kegs in the rear of a saloon of their dregs and in other ways acted in a manner which aroused the fear of the peaceful villagers.

The result was that Undersheriff Scott drove to Mindoro and arrested the man and brought him to the city. Last evening Judge Brindley sentenced the fellow to 40 days in the county jail on the charge of being a vagrant. Mindoro people tell some awful tales of Sifer's actions when he is on a jag. He will go to any extreme to get liquor and this was not the first time he had been found draining empty kegs in the rear of saloons.

Announced

(Scripps-McRae Dispatch.)

SAN FRANCISCO, April 27.—An appeal to congress for a loan of many millions at two per cent, secured by mortgages, is to be made by business men, of what once was San Francisco.

Herbert E. Law, a Californian and a wealthy man, has gone to Washington to interview the president and congressmen. Law could not cash his checks and finally was forced to borrow money to take him east.

It is likely there will be many changes in the plans of the city. It is expected more parks will be built everywhere. The business center will probably be nearer the ferry buildings and the retail district may

REGENTS  
TO PAY  
\$23,400Colman Says Don't  
Mind Expense

## DECISION REACHED TODAY

La Crosse Citizens Will  
Probably Subscribe the  
Necessary Balance

The La Crosse normal school will be located on the Michael Funk site, consisting of two solid blocks of land adjoining the west side of the fair grounds and lying between State, Pike and Seventeenth streets and the Green Bay railroad track, comprising eight acres. The price of this tract of land including one house and lot which will have to be purchased is \$23,400. The last legislature appropriated \$10,000 for a site for the school. The sum of \$13,400 will have to be raised locally.

The normal regents accompanied by members of the local committee appointed by the Businessmen's association, left the Stoddard hotel shortly after 8 this morning on their inspection of the dozen sites offered for the state school. The Funk site was one of the last viewed. As the autos bowed out State street past the handsome residences on that thoroughfare and the visiting regents finally got a view of the panorama of bluffs and green valleys lying between they all went into ecstasies of delight over the beautiful scenery. With the eyes of the visitors still on the distant hills the autos suddenly stopped at Seventeenth and State streets and the committee in charge pointed out two blocks of vacant land with a house in one faraway corner, as one of the prospective sites for the school.

Gazing around at the thickly settled residence districts which stretched away in every direction and at the towering hills a mile away almost to a man the regents made up their minds right there that this was the logical site for the new school. It is near enough to a thickly settled residence community to secure plenty of small children for the training grades. The street railway is but two blocks away. It is located in the midst of one of the best residence districts in the city on a paved street which is one of the principal pleasure thoroughfares of the city. The scenic panorama to the eastward is the grandest enjoyed by any normal school in the state.

The autos landed their occupants at the La Crosse club at 10:30 and the board immediately went into session. The preference of the regents was unanimous from the start for the Funk site. With the understanding that this was to be the site chosen a committee of four regents was appointed to report to the regents as a body at the next regular meeting. Regents Lord, Crownhart, Harrington and Morris were appointed on the committee.

The board of regents completed its work here shortly before noon and some of the members left for their

LENHOFF GETS BUSY  
AT PORTAGE

Deputy State Factory Inspector August Lenhoff returned to La Crosse yesterday from Portage, where he secured the arrest and fining of three individuals for breaking state laws, the enforcement of which comes within the province of Mr. Lenhoff.

Michael Huber, manager of a bowling alley, was fined \$10 and costs for employing Claude Welsh, a boy under 13 years of age.

J. H. Wells, proprietor of the Ender house, was arrested for not complying with the state law on fire escapes and had his case adjourned for 30 days.

G. H. Brenner, proprietor of the Planters' hotel, was arrested on the same charge and his case was also adjourned.

PUENTS SAY THEY  
ARE THE ABUSED

In regard to the controversy between the families of William H. Puent and William Layman residing on Farewell and La Crosse street, Mrs. Puent asserts stories circulated by the Laymans are untrue. She declares the matter of the suppression of alleged indignities heaped upon herself and her family by the Laymans will be settled in the courts. Mrs. Puent says they have owned their property for twenty years and that they Laymans hold no interest in the private alley in question.

The Knights of Columbus of Lansing will send a delegation to La Crosse Sunday to take part in the initiation of a large class in the local order.

**How Tobacco is Flavored**

Just how or when the secret was discovered that a mixture of different kinds of tobacco leaf produced a far more pleasant, and aromatic smoke than either kind used separately, is not now known. Nor do we know who the maker was who first discovered that by the use of strong drugs inferior leaf could be so treated as to be almost indistinguishable from the finer, but expensive blended tobacco. We do know, however, that such doctoring has become almost universal. No matter how expensive or how cheap the tobacco you use may be, it is almost sure to be doctoring to conceal inferior stock. Most makers produce the flavor this way to the exclusion of the expensive method of blending. Most ill which smoking is supposed to cause, result from such drugs. Good tobacco can hurt no one.

The flavor of Red Feather Tobacco is produced solely by the good old-fashioned method of perfect blending. No drugs are used and the tobacco is allowed to age slowly, and is thoroughly seasoned before sold. No better tobacco can be made than Red Feather. It has a flavor and delightful aroma that you will appreciate and contains nothing that can hurt you, no matter how much you

## CYCLONE WIPES OUT TEXAS TOWN

Fort Worth, Tex., April 27.—Meager  
advice received here state that the  
town of Bellevue has been totally de-  
stroyed by a tornado; that twelve or  
fifteen persons have been killed and  
many are injured and missing, and that  
fire is destroying the ruins caused by  
the tornado.

A special train has been started from  
Bowie, Tex., 125 miles distant, for the  
scene. Bellevue is a town of 1,500 in-  
habitants.

## SHOULD ENFORCE ALL LAW, IS DECISION OF DEBATORS

A unanimous decision was rendered  
last evening by the jury of the  
Franklin club who heard the debate  
on the question, "Resolved, that all  
laws and ordinances relating to  
gambling and saloons should be  
strictly enforced."

The jury consisted of T. J. Lar-  
kin, Mrs. Charles Geisenheimer and  
Fred Schulz.

H. L. Taylor debated the affirma-  
tive assisted by District Attorney  
Otto Bosshard and W. E. Barber and  
the negative was debated by M. M.  
Downey assisted by H. G. Hayden  
and C. H. Berry.

Instances of which the speakers  
had heard were cited which plainly  
showed that the laws were not being  
strictly enforced.

Abolish the Senate.

"Resolved that the United States  
senate should be abolished" is the  
question for next Thursday and it  
will no doubt prove very interesting.  
Some time ago they debated the  
question that senators should be el-  
ected by popular vote and now they  
wish to do away with the senate en-  
tirely.

The affirmative will be debated by  
George B. Marvin assisted by Rev.  
Charles Wentworth and C. C.  
Looney and the negative by A. A.  
Zimmer, A. H. Schubert and Paul  
Schulze.

## "A Clean-Cut Looking Young Fellow?"

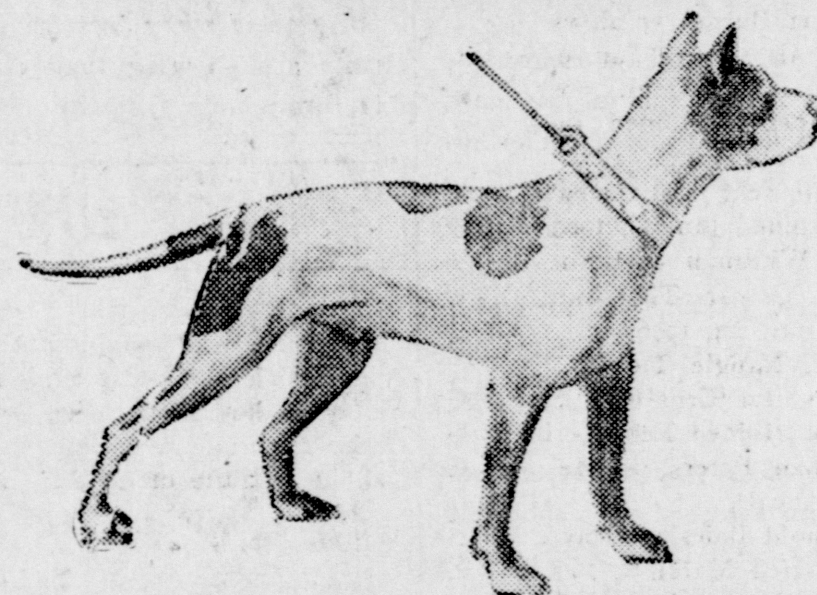

DO THEY SAY THAT ABOUT YOU?

There are three manufacturing tailors of high  
repute in this country who pay particular atten-  
tion to youth's clothes. From these three we  
have selected the choicest lines of young men's  
suits and overcoats that it has been our good for-  
tune to handle. The styles are fashioned after  
those that prevail at Harvard, Yale, Columbia,  
Cornell and similar institutions, and have a dash  
to them that makes them not only desirable but  
individual--clean-cut. Young men are cordially  
invited to inspect them and we are confident  
their good tastes will be pleased to the utmost.

## OF THE SORTS OF GIVING.

That the only beauty of charity is self sacrifice on behalf of others is a fact that we do not all stop to consider when we cry "ah-ha," because some wealthy man has given a check of four figures to some good cause. The gift that pinches the giver is the gift that is recorded in red letters in Heaven.

However, a rich man may give what in his judgment is a reasonable amount for a good cause, and he may not feel deprivation in the least, and it is still a good deed, a better deed than if he gave squanderingly and without due regard to the equity of his offering. A big gift by a rich man may be selfishly made, and a little gift by a rich man may carry with it the blessing of Heaven.

We hear too much about the ostentatious giver. Let the rich man give and the papers emblazon his generosity in large type, and it is said that he made a spectacle of his charity. Maybe he did, and maybe he did not consent to the publicity and it was distasteful to him. If he coveted notoriety, if he bought the public clamor, he was no better because he gave; if the noise was made because he sought the spotlight with blare of trumpet, he is a cheap mountebank. But if he merely suffered publicity as an unavoidable annoyance, and gave to help the recipient of his largess, his deed was good.

A La Crosse man once went without a new suit all winter in order to help sufferers to whom wealthy men were contributing large sums. He gave in the name of God, or if no Christian, he gave in the name of his fellow men, which Abou Ben Adhem learned was the equivalent of doing in the name of God.

## IMITATION SWEETEST FLATTERY.

It seems scarcely a day—as time is measured—that the organs of the monopolies screamed "yellow journalism, sensationalism, freak-ism" at the Tribune's attractive headlines. So satisfied was that astute manipulator of the Evening Organ that large, comprehensive headlines were a mistake, that the size of the heads in the organ were reduced to the minimum, temporarily.

Now the Evening Common Stock comes out with the sincerest sort of flattery for the Tribune—an imitation of its "sensational" headlines.

Unable to comprehend the wonderful bounds of the Tribune to popularity and public esteem, the Mysterious Mr. Gelatt has backed water on his sensational headline argument and comes out in pure and undisguised imitation of La Crosse's most popular newspaper—the Tribune.

But one thing the "splendid aggregation of capital and intelligence" evidently has not discovered, or if he has, that he has failed to attempt to demonstrate—is that it is the tale the headlines tell, not the black type, that has made the Tribune La Crosse's leading paper. Big headlines—such as Mr. Gelatt now seeks to use—with nothing under them other than the mouthings of the trust: satellites and corporationists, will not for a moment attract any attention in La Crosse.

Fearlessness, honesty, frankness, truthfulness and untiring interest and solicitation for the public good is the creed that must regulate what follows big headlines; it must mould the stories the big headlines tell.

These qualities, not possessed by the "private interest" organs, are what has made the Tribune the leading paper, and are what will cause it to continue to grow and prosper.

With the multiplicity of private interests to serve, and different masters to answer to, it would indeed be difficult for Mr. Gelatt to even countenance a creed so broad and daring.

So much for the imitation.

Now comes the deception—one of the many—the "system" whereby the news will be rehearsed and redished in the Morning and Evening or-

gans day after day to save expenses and fool the public into believing both are NEWSPAPERS.

An examination of all and any honest newspapers will reveal that in telegraphic news the dispatch is preceded by the place and date, i. e.:

Kenosha, Wis., April 26.—

Now go get a copy of the Chronicle and the Leader-Press, the consolidated organs of all Mr. Gelatt has advocated and "manipulated," et cetera, and examine the telegraphic and clipped-telegraphic news and you will find the "date lines," as printed in honest newspapers, have been juggled into the following, e. g.:

Kenosha, Wis.—

It will be noticed the "April 26.—" has been omitted.

This, of course, is so the "news" of the Leader-Press can be lifted bodily into the Chronicle and vice versa, the absence of date obviating the work of advancing them. This stale news is worked back and forth, disguised with altered headlines, and palmed upon the public as fresh.

Of course this is not illegal; its merely like a furniture dealer who would revarnish a second hand chair and sell it to you for the price of a new one.

But after all, it may have its beneficial results, in encouraging a spirit of sympathy and friendship.

Dear reader, after the announcement that "Mrs. Sam Jones has given a party," has appeared frequently enough, we are apt to form a friendship for the announcement through long acquaintance.

Did "William Tell"?

It is to be noted American Marines is what settled the San Domingo imbroglio.

The normal regents seem determined that Mr. Pray is due to say his prayers.

A half dozen "scoops" with the whole "swarm of reporters" sick in bed. Goin' some?

By the way, where is Chauncey and the gang; we had almost forgotten them in the whirl of rushing events.

The people who read the Tribune are the people who buy in La Crosse—not the kind who send to Chicago.

That Mexican Plantation La Crosse seems to be merely a "plantation" of La Crosse money, but evidently not all in Mexico.

Voliva may be young enough to gain the money and Dowie's power, but he is not apt to win much respect if he lives a thousand years.

By their every increasing patronage La Crosse's progressive merchants are showing they can appreciate reaching 20,000 people every day through the Tribune.

## The Weather Man.

Some days back, as time we measure,

Though it seems to us an age,  
We read with rising pleasure  
That a storm of rain would rage  
Over garden spots and country side,  
Imparting life anew  
To all the blossoms nature hides  
Unkissed yet by the dew.  
Then we waited, idly waited,  
For the promised rain to come,  
But the rain it seems belated—  
Or the forecast on the bum.  
And the weather man is nervous;  
He is willing to declare,  
It was wrong to make the forecast—  
But at that it still is "fair."

The mayor of New Richmond, Wis., has published an edict against profanity. It's well Van Metre is a federal office holder.

Knocking is unnecessary in La Crosse. Things which need knocking are, fortunately, a knock to themselves.

If some of those senators lose out in the next election, they can always get jobs as whitewashers, judging from their approval of the appointment to the Washington postoffice of assistant secretary to the president Barnes, after that Morris affair.

By the way, perhaps some of those regents can explain why La Crosse girls, with ample and superior education, can not get employment in our public schools?

Two bluffs are always better than one quit.

Well, William R. just had to have that money, so there.

## Those "News" Items.

An exposure of the methods of exposure is now threatened by the other side in the sensational magazine now on. It is strange this has not been done before. The coal barons have been flooding the country with literature in their interests.—Madison Journal.

## Argus-eyed Business.

The consolidation of The La Crosse Chronicle and The Leader-Press is in line with the prevailing tendency not only in newspaper circles, but in other lines of business. In this case the surprising feature is that, since the same party owned both papers, the merger was not made long ago.—Green Bay Gazette.

## Becker, Commended.

Fuss-and-feathers men think they score by impressing their own importance. They don't. Modern business is argus-eyed. It watches its men keenly, weighs their usefulness, judges by results. Time taken in talk is time taken from work. Modern business uses a stop-watch in the close race for success.—Marquette Marquette Eagle-Star.

## Like Last Call.

The effort of Sherburn M. Becker, now that he has been elected mayor of Milwaukee, to steer clear of factionalism in making his appointments should be generally commended. Mr. Becker is evidently looking to the future as well as the present and in this respect his attitude is one of which republicans of this county may well take cognizance.—Stevens Point Journal.

Mr. Haugland has been traveling for some time in Norway in the interest of the inner mission and also the China mission, and since he came to this country he has constantly been engaged in the work for the inner mission and is known as a very able and interesting speaker.

The meetings will continue during the week.

HENRY ANTHONY  
PASSES AWAY

A number of relatives and friends of Henry Anthony, formerly of 1337 Wood street, received notice yesterday to the effect that he had died at Reedland, where he went about two months ago for his health.

Henry and his father went out there first and he improved so much that they decided to remain there and the remainder of the family arrived there about a month ago.

Henry had been suffering with tuberculosis, and was only ill about four months. He has a large circle of friends here who will mourn his loss very much.

## BRAVADO FORCES WEST TO PAY \$50

Boasting that he had the money in his pocket but laughingly remarking that the attorneys couldn't touch him with the law and make him pay, Fred West was brought to time by supplementary proceedings before Judge Brindley late yesterday afternoon and compelled to pay not only the amount of an original judgment against him, \$35, but \$15 added costs.

After resisting the payment of a garnishee judgment rendered in justice court by representing that he had nothing coming from the people who were employing him to move a house, West thought he was safe and facetiously twitted Attorney A. C. Wolfe about it. Within 15 minutes papers were served upon him in supplementary proceedings and the defendant was grilled before Judge Brindley. Here he was made to account for every dollar he had taken in recently and all that he had disbursed, finally being made to admit that he had not spent it all. By a clever bit of cross examination Mr. Wolfe finally provoked West to declare that he had a hundred dollars and could show it. Wolfe defied him to prove it and when he pulled out something over \$60 an order was secured from the court compelling him to pay over \$50 of it to satisfy the judgment. There perhaps never was an angrier man in La Crosse county court room than West when he handed over the money to the sheriff.

## LA CROSSE GAVE CHICAGO \$3,000

La Crosse people have given liberally to the sufferers at San Francisco, and due credit has been given the larger givers. It has been suggested, however, that among those who gave small amounts there may have been a greater sacrifice than was made by those who gave hundreds they may never miss.

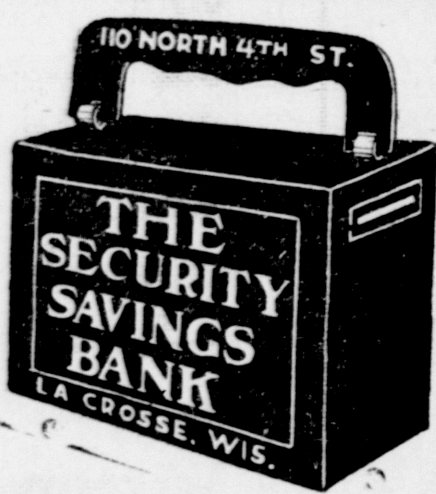

Discussing the point yesterday, Dr. Wendall A. Anderson, after saying a word of praise for those who have so liberally and promptly responded to the call for help, offered the suggestion that we are often inclined to swell up with pride in our own generosity that the circumstances do not justify.

"For instance," said Dr. Anderson, "in 1871, immediately after the Chicago fire, a mass meeting of La Crosse citizens was called at the court house, and before it adjourned the people of this little city of 10,000 people had subscribed \$3,000, and more was added later. Moreover on the day previous a carload of provisions was sent from La Crosse to Chicago for the sufferers."

"The first subscriptions were made in the open," continued the doctor, "a wealthy and worthy man starting the ball rolling with \$100. He was cheered, and another followed and still another, and the cheering continued. This publicity bade fair to crowd out the contributions of the men who could afford less, until Colonel Woodward cleared the situation by arising and declaring he was going to start a 'poor man's list,' which he would head himself, and the names and amounts in which should remain secret. There was great gratification among the masses when, at the close of the meeting, it was found that the 'poor men's list' aggregated more than the other, and that in it was a subscription by a man whose name was not announced amounting to \$200, while the largest in the public list was \$100."

The man to whom Dr. Anderson had reference as giving the \$200 is said to have been O. S. Wood, father of Walter Woods, city engineer. La Crosse has done splendidly for San Francisco, but one sees that to have equalled the gift of the La Crosse of 10,000 people who gave to the Chicago fire sufferers over \$3,000 and a car of provisions, the 30,000 La Crosse of today must have given San Francisco \$10,000. Let us not wantonly boast of plain duty done.

"Of the total number of graduates of Stevens Point in twelve years, 290, eighty-one of these have been principals or assistants in the four years high schools in the state. If all the schools maintained this high standard over one-half of the teachers and principals in the state high schools would be normal school graduates. There would be, if this gait was maintained by all schools, 520 normal school principals and teachers," said President Pray.

"The system of physical exercises first was established at Stevens Point and measurements followed later, even in advance of the state university."

Continuing, President Pray pointed out a number of improvements he had made in the system of teaching. At the conclusion of the hearing the normal regents were given a reception by the local committee.

### Generous Citizens Ready.

Indications are there will be no difficulty experienced in raising the amount required to make up the deficiency between the state's appropriation and the amount required to buy the site.

During the meeting of the regents at the club this morning L. C. Colman arose to state that the board need not allow the question of price to enter into the choosing of a site. "Pick any site you choose," he said, "we will see to the rest." Mr. Colman's statement conveyed the impression, as it was meant, that public spirited citizens of La Crosse would soon raise the \$13,400 needed to buy the site and there would be no trouble about getting it.

## RUBBER MILLS MEN SAVE OTHER PROPERTY

The efforts of the men employed by Manager George S. Andrus of the La Crosse Rubber Mills, company on Indian hill, saved the house and other property of E. W. Schultze when his bars were burned near the rubber mills Wednesday with a loss of \$500.

The water supply and fire protection at this point is exceedingly poor. When the fire broke out Mr. Andrus shut down the rubber mills and sent his entire crew to the scene to fight the flames. Their efforts resulted in the saving of the houses and equipment, and of the house and other nearby property. Mr. Schultze is consequently very grateful.

## DEMOCRATS DECIDE ON CONVENTION

The democrats of Wisconsin will hold a convention, at which a platform will be adopted, in the latter part of June.

This decision was reached by the members of the state central committee at Milwaukee shortly before 1 o'clock this morning, after a session that lasted nearly five hours in which the question was discussed at length.

The members of the committee met with county chairman and democratic editors at 8:30 o'clock last night and after debating the convention proposition until 11:30 o'clock a ballot was taken, which showed that the convention men outnumbered their opponents at the ratio of four to one.

The state central committee then went into executive session and after a discussion lasting more than an hour decided to ratify the action of the conference as to holding a platform convention. Under the terms of the primary election law the platform must be formulated by the candidates on the state ticket, so the action of the convention will be merely recommendatory, but it is not believed that the platform adopted in June will be different from the one that will be prepared by the nominees after the primary on Sept. 3, unless there should be a material change in party opinion between these dates.

A committee consisting of Chairman H. H. Manson of Wausau, J. J. Cunningham of Janesville, J. A. Aylward of Madison, George Hilton of Oshkosh, and Albert J. Grundman of Oshkosh was appointed to fix the date and place for holding the convention. Oshkosh and Madison have already put in bids for it, and as Milwaukee will probably also ask for it a lively contest is expected.

The action of the democrats in deciding not to be entirely bound by the new primary law, which will be tested throughout the state for the first time this year is certain to cause considerable discussion.

## MARBLE MARKERS FOR GRAVES OF SPANISH VETS

According to information received yesterday the graves of dead veterans of the Spanish-American war in La Crosse will be the first in the country to be provided with marble grave markers by the war department. The following dead heroes will be honored by the war department markers:

Oak Grove cemetery—Col. M. T. Moore, Corporal Bert B. Bailey, Private Joseph Tuebeck, George W. Van Loon, Arthur C. Maseuger, Oscar Karl, Louis Wensole, Valentine Konetzki.

Catholic cemetery—Sergeant Andrew Krebs, Sergeant Frank Mullenberg, John T. Riley, John Spika and George Fisher.

Ben F. Richmond of Arcadia and Michael T. Cain of Brownsville are also included in the list.

## BANKERS ORGANIZE

A preliminary meeting of bankers for the purpose of organizing "Group No. 7" of the State Bankers' association was held here yesterday afternoon. Officers of the Wisconsin Spiritualists association in session in Milwaukee for the ensuing year were elected as follows:

George H. Brooks, head of the Milwaukee Unity of Spiritualists, president; Mrs. Catherine McFarlain, La Crosse, first vice president; Mrs. M. Owens, Milwaukee, secretary; W. E. Bristol, Oakfield, treasurer; J. Worthing, Oakfield; Mrs. Julia Smead, Dr. Fred Mehrtens, and Mrs. A. Snyder, Milwaukee, trustees.

Milwaukee was unanimously chosen for the next convention, which will be held on the third Tuesday of April, 1907.

Resolutions were passed opposing the attendance of children of Spiritualists at Christian Sunday schools. Other resolutions were passed encouraging the work of genuine mediums and denouncing the false ones.

## OLE HEMMA DEAD

Ole J. Hemma, an old resident of Galesville and the town of Gale, died at the home of his niece, Mrs. O. N. Sagen, in Galesville, Monday.

Ole J. Hemma was a native of Norway, coming to this country fifty-one years ago. His first residence in this country was in La Crosse county, where for a number of years he owned a farm near Mindoro. Later on he removed to Trempealeau county, settling in Hardie's Creek, where he farmed until thirteen years ago, when he retired and moved to Galesville. He built a comfortable home and occupied this as a residence until the death of his wife, and then made his home with his niece, Mrs. Sagen.

## DECIDE CLUB MATTER NEXT THURSDAY

Owing to the fact that last night's meeting was a special ratification of the committee's lease on the theatre for club purposes was not considered last evening. It will be settled at the first regular meeting of the lodge which will be held next Thursday.

Three candidates were initiated last night.

A piece of residence property located at the corner of West avenue and Mississippi street, has been sold by Anna P. Sutor and W. A. Sutor to L. C. Jenks for a consideration of \$3,500.

## Head Ache Sometimes?

If so, it will interest you to know that it can be stopped with Dr. Miles' Anti-Pain Pills; and without any bad after-effects, and this without danger of forming a drug habit or having your stomach disarranged. They positively contain no opium, morphine, cocaine, chloral, ether or chloroform in any form. Dr. Miles' Anti-Pain Pills relieve pain, and leave only a sense of relief. The reason for this is explained by the fact that headache comes from tired, irritable, turbulent, over-taxed brain nerves. Anti-Pain Pills soothe and strengthen these nerves, thus removing the cause. They are harmless when taken as directed.

"We use Dr. Miles' Anti-Pain Pills for the cure of headache, and we think that there is nothing that will equal them. They will cure the severest spell of nervous or sick headache in a very few minutes. I am of a nervous temperament, and occasionally have spells when my nerves seem to be completely exhausted, and I tremble so I can scarcely contain myself. At these times I always take the Anti-Pain Pills, and they quiet me right away. It is remarkable what a soothing effect they have upon the nerves."

## CORNISH POINT LEAD AND ZINC MINE PROPERTIES

You may be unfamiliar with the lead and zinc resources of Grant county, Wis., and it is proper that you be informed of what some of the mines have done and are doing, and we will cite as illustrations, the Empire and Enterprise, many others having become dividend-paying, but for lack of space will not mention and the above will suffice.

The Empire is now paying dividends averaging 500 per cent on their capital stock of \$30,000 and their shares are quoted at \$900.00. The Enterprise is paying some less and their shares are quoted at \$700.00 each. The best posted mining men of the country assert that this is to become the most important lead and zinc district in the world; indeed the development and discoveries are gigantic.

The property to which we desire to particularly call your attention at this time is what is known as the Cornish Point property consisting of 80 acres on the farm of Louis Polander, and the 50-acre tract owned by John Wolf in the towns of Potosi and Harrison, one and a quarter miles from Rockville, and 4½ miles from Potosi on the C. B. & Q. Ry. Through those lands extend four separate and distinct lead ranges, many of which have been worked to the water, but for lack of funds operations ceased and left remaining large deposits of this valuable mineral and also large deposits of the famous zinc ore, which has created fabulous wealth in this district. Upon those properties are two shafts, one of a depth of 85 feet, and one of a depth of 60 feet. Another is being sunk and will be 50 or 60 feet deep ere this reaches you. A level or tunnel is also being worked on, which is said to be the second one of its kind in the entire district. If it proves to be a success, as we predict it will, the necessity of an expense of about \$15.00 per day, will be obviated in hoisting and pumping. It can hardly be said that those properties are prospects, as the indications and conditions of them are such as to warrant the most skeptical that lead and zinc abound in great quantities. On these properties there are two mining propositions and therefore when you become interested in Cornish Point Lead and Zinc Co. you become interested in both.

This company is incorporated under the laws of the State of Wisconsin, and the capital stock is \$25,000, a part of which is now for sale, at the par value, \$1.00 per share, 25 cents per share to accompany the order, the remaining 75 per cent, subject to call of the board of directors, as required from time to time. The company has no liabilities, and starts out with a clean sheet and every dollar of the proceeds of the sale of stock will be used in the development of those properties and the expenditure of such equipment as may be required to subserve and promote the best interests of all concerned. Those propositions are offered as reliable, straight-forward, business propositions, and operating and development of the two properties under one management is one of the very important features indicating the economy and conservatism of the guiding hands of the company.

You are invited to investigate the property and to visit Potosi, Rockville, and the surrounding territory in which you will find we are justified in making the statements and predictions we do. In corresponding, address the company, and if you will notify us in advance we will endeavor to meet you and to do what we can to interest you while in the district.

Yours truly,

## OUST PRES. PRAY

### NORMAL REGENTS OB DURATE

### Refuse to Recede From Stand

### NO SUCCESSOR APPOINTED

### Board Will not Decide This Matter for Some Time to Come

By a unanimous vote the state board of normal regents voted in executive session at the La Crosse club this morning not to recede from its demand for the resignation of President Pray of the Stevens Point normal school.

In the opinion of the board Mr. Pray's defense of himself at the public hearing last night did not change the aspect of the case in the least. The circumstances leading up to the request for his resignation were sufficient in the opinion of the regents to warrant a change in the management of the school. President Pray's faults are temperamental, in their opinion, and hence cannot be remedied.

No action is to be taken on a successor for some time.

**Pray's Defense.**

President Pray of the Stevens Point normal school appeared before the state board of normal regents at the La Crosse club last night and in an open session made a plea against the demand of the board for his resignation.

The board of regents last night gave out a statement to the press reciting the reasons for the request for the resignation of President Pray. The statement in part with the four reasons, follows:

President T. B. Pray of the Stevens Point normal school, having requested to be informed specifically as to the reasons which prompted the board to suggest his retirement from the presidency of the normal school, it is thought proper at this time to make a somewhat general, rather than specific statement of some of the reasons. Briefly stated they are:

1. The man who is now filling that position is not, in the opinion of the board, a vigorous and efficient administrative officer.
2. He is not, in the opinion of the board, an enthusiastic and inspiring teacher and educational leader.
3. We believe these defects are temperamental and it is therefore practically impossible for him to overcome them.
4. We believe the Stevens Point normal school is not now securing the best results obtainable, all things considered.

The statement continues with a general complaint against President Pray saying a change was contemplated several years ago. "Graduates and others have repeatedly stated that the president does not properly prepare himself and his classes and keep himself well informed regarding the work of the teachers and pupils."

After the reading of the statement by Secretary Rockwood Mr. Pray was given the floor. From manuscript.

### "DOC" WESTON SAVED A TRUNK

### La Crosse Specialist Flies With Wife and Baggage in his Auto

Dr. Frank R. Weston, wife and child escaped from the San Francisco disaster to Berkeley in their automobile with two trunks full of clothes and personal valuables, according to word received here by relatives.

All of the rest of their belongings including Dr. Weston's office equipment and instruments were swept away by the fire which followed close after them as they sped away in their car toward the Berkeley hills. Dr. Weston had been located in San Francisco but a few months and had built up a splendid business.

### LA CROSSE GROOM LOST ALL BUT YOUNG BRIDE

Just nicely established at house-keeping after their honeymoon A. Wilde, son of J. V. Wilde, of 1222 State street, and his bride, lost their all in the San Francisco fire which followed the earthquake. They are now on their way to this city and are expected to arrive here within a day or two.

Wilde but recently completed three years' service with the army in the Philippines. Returning to San Francisco he married a young lady he met there, secured employment and furnished a pleasant little home. In a couple of hours last Wednesday morning the young couple saw their home and all its contents swept away. They will probably locate in this city.

### CHICAGO BANKERS ARE INDICTED FOR FRAUD

CHICAGO, April 27.—Former Judge Anner Smith, president of the defunct Bank of America; Jerome V. Pierce, cashier; Gustav F. Sorrow and F. E. Creelman, were indicted today in connection with the recent failure of the bank. It is understood conspiracy to defraud is the principal charge.

### DRAINED OLD BEER KEGS TO QUENCH HIS THIRST

With a thirst for intoxicants which once provoked knows no quenching George Shofar, a resident of Mindoro, took to draining beer kegs in the rear of a saloon of their dregs and in other ways acted in a manner which aroused the fear of the peaceful villagers.

The result was that Undersheriff Scott drove to Mindoro and arrested the man and brought him to the city. Last evening Judge Brindley sentenced the fellow to 30 days in the county jail on the charge of being a vagrant. Mindoro people tell some awful tales of Shofar's actions when he is on a jag. He will go to any extreme to get liquor and this was not the first time he had been found draining empty kegs in the rear of saloons.

### Plan to Borrow Millions From Government Announced

(Scripps-McRae Dispatch.)

SAN FRANCISCO, April 27.—An appeal to congress for a loan of many millions at two per cent, secured by mortgages, is to be made by business men, of what once was San Francisco.

Herbert E. Law, a Californian and a wealthy man, has gone to Washington to interview the president and congressmen. Law could not cash his checks and finally was forced to borrow money to take him east.

It is likely there will be many changes in the plans of the city. It is expected more parks will be built everywhere. The business center will probably be nearer the ferry buildings and the retail district may

## TRIBUNE INCREASES ITS LEAD

### Local Advertisers Continue to Show Their Splendid Endorsement

It is conceded that the consensus of opinion among local advertisers is an unflinching guide by which strangers to the merits of publications are enabled to decide what newspapers are the best advertising mediums.

The verdict of La Crosse merchants is in favor of The Tribune by an overwhelming majority. Following will be found a tabulation of local display advertising inches used in The Tribune The Chronicle and the Leader-Press respectively:

## REGENTS TO PAY \$23,400

### Colman Says Don't Mind Expense

### DECISION REACHED TODAY

### La Crosse Citizens Will Probably Subscribe the Necessary Balance

The La Crosse normal school will be located on the Michael Funk site, consisting of two solid blocks of land adjoining the west side of the fair grounds and lying between State, Pike and Seventeenth streets and the Green Bay railroad track, comprising eight acres. The price of this tract of land including one house and lot which will have to be purchased is \$23,400. The last legislature appropriated \$10,000 for a site for the school. The sum of \$13,400 will have to be raised locally.

The normal regents accompanied by members of the local committee appointed by the Businessmen's association, left the Stoddard hotel shortly after 8 this morning on their inspection of the dozen sites offered for the state school. The Funk site was one of the last viewed. As the autos loaded on State street past the handsome residences on that thoroughfare and the visiting regents finally got a view of the panorama of bluffs and green valleys lying between they all went into ecstasies of delight over the beautiful scenery. With the eyes of the visitors still on the distant hills the autos suddenly stopped at Seventeenth and State streets and the committee in charge pointed out two blocks of vacant land with a house in one faraway corner, as one of the prospective sites for the school.

Gazing around at the thickly settled residence districts which stretched away in every direction and at the towering hills a mile away almost to a man the regents made up their minds right there that this was the logical site for the new school. It is near enough to a thickly settled residence community to secure plenty of small children for the training grades. The street railway is but two blocks away. It is located in the midst of one of the best residence districts in the city on a paved street which is one of the principal pleasure thoroughfares of the city. The scenic panorama to the eastward is the grandest enjoyed by any normal school in the state.

The autos landed their occupants at the La Crosse club at 10:30 and the board immediately went into session. The preference of the regents was unanimous from the start for the Funk site. With the understanding that this was to be the site chosen a committee of four regents was appointed to report to the regents as a body at the next regular meeting. Regents Lord, Crownhart, Harrington and Morris were appointed on the committee.

The board of regents completed its work here shortly before noon and some of the members left for their

TONIGHT

The contest for the elaborate meerschaum pipe which is being raffled off by Fay Lewis Bros. company for the aid of the San Francisco sufferers will close this evening. The \$102 which has been realized on the raffle will be forwarded to the relief committee at San Francisco at once.

PUENTS SAY THEY  
ARE THE ABUSED

In regard to the controversy between the families of William H. Puent and William Layman residing on Farewell and La Crosse street, Mrs. Puent asserts stories circulated by the Laymans are untrue. She declares the matter of the suppression of alleged indignities heaped upon herself and her family by the Laymans will be settled in the courts. Mrs. Puent says they have owned their property for twenty years and that they Laymans hold no interest in the private alley in question.

The Knights of Columbus of Lansing will send a delegation to La Crosse Sunday to take part in the initiation of a large class in the local order.

How Tobacco  
is Flavored

Just how or when the secret was discovered that a mixture of different kinds of tobacco leaf produced a far more pleasant, and aromatic smoke than either kind used separately, is not now known. Nor do we know who the maker was who first discovered that by the use of strong drugs inferior leaf could be so treated as to be almost indistinguishable from the finer, but expensive blended tobacco. We do know, however, that such doctoring has become almost universal. No matter how expensive or how cheap the tobacco you use may be, it is almost sure to be doctoring to conceal inferior stock. Most makers produce the flavor this way to the exclusion of the expensive method of blending. Most ill which smoking is supposed to cause, result from such drugs. Good tobacco can hurt no one.

The flavor of Red Feather Tobacco is produced solely by the good old-fashioned method of perfect blending. No drugs are used and the tobacco is allowed to age slowly, and is thoroughly seasoned before sold. No better tobacco can be made than Red Feather. It has a flavor and delightful aroma that you will appreciate and contains nothing that can hurt you, no matter how much you

## SHOULD ENFORCE ALL LAW, IS DECISION OF DEBATORS

A unanimous decision was rendered  
last evening by the jury of the  
Franklin club who heard the debate  
on the question, "Resolved, that all  
laws and ordinances relating to  
gambling and saloons should be  
strictly enforced."

The jury consisted of T. J. Lar-  
kin, Mrs. Charles Geisenheimer and  
Fred Schulz.

H. L. Taylor debated the affirma-  
tive assisted by District Attorney  
Otto Buschard and W. E. Barber and  
the negative was debated by M. M.  
Downey assisted by H. G. Hayden  
and C. H. Berry.

Instances of which the speakers  
had heard were cited which plainly  
showed that the laws were not being  
strictly enforced.

Abolish the Senate.

"Resolved that the United States  
senate should be abolished" is the  
question for next Thursday and it  
will no doubt prove very interesting.  
Some time ago they debated the  
question that senators should be  
elected by popular vote and now they  
wish to do away with the senate en-  
tirely.

The affirmative will be debated by  
George B. Marvin assisted by Rev.  
Charles Wentworth and C. C.  
Looney and the negative by A. A.

## AT THE THEATRES

A romantic comedy drama with a  
most striking title, "A Jolly Ameri-  
can Tramp," is announced for Sun-  
day, April 29th, at the La Crosse  
theatre. This piece is from the pen  
of Mr. E. E. Kidder, who wrote  
"Peaceful Valley" and "A  
Poor Relation" for Sol Smith Rus-  
sell, and who would have us under-  
stand that in his new creation he has  
overstepped the heart interest of the  
other, given us more true comedy  
and blended more touching pathos in  
it than in any of his former efforts.  
"A Jolly American Tramp" plays on  
the heart strings of its beholders and  
touches the risibilities to such an ex-  
tent that laughter will chase away  
tears ere they have had time to fully  
leave their mysterious hiding places.  
Quaint conceits in comedy, stirring  
situations and startling climaxes are  
announced. A cast well balanced of  
favorably known players will enact  
its various roles. Scenic investitures  
of regal splendor will aid in depict-  
ing its locale, and effects are prom-  
ised that will thrill, startle and en-  
thrall every one of its beholders.  
There will be two performances, at-  
ternoon 2:30, evening 8:15.

Murray and Mack in their new  
comedy "Around the Town" at the  
theatre next Tuesday, May 1st,  
should attract a large audience of  
merriment lovers.

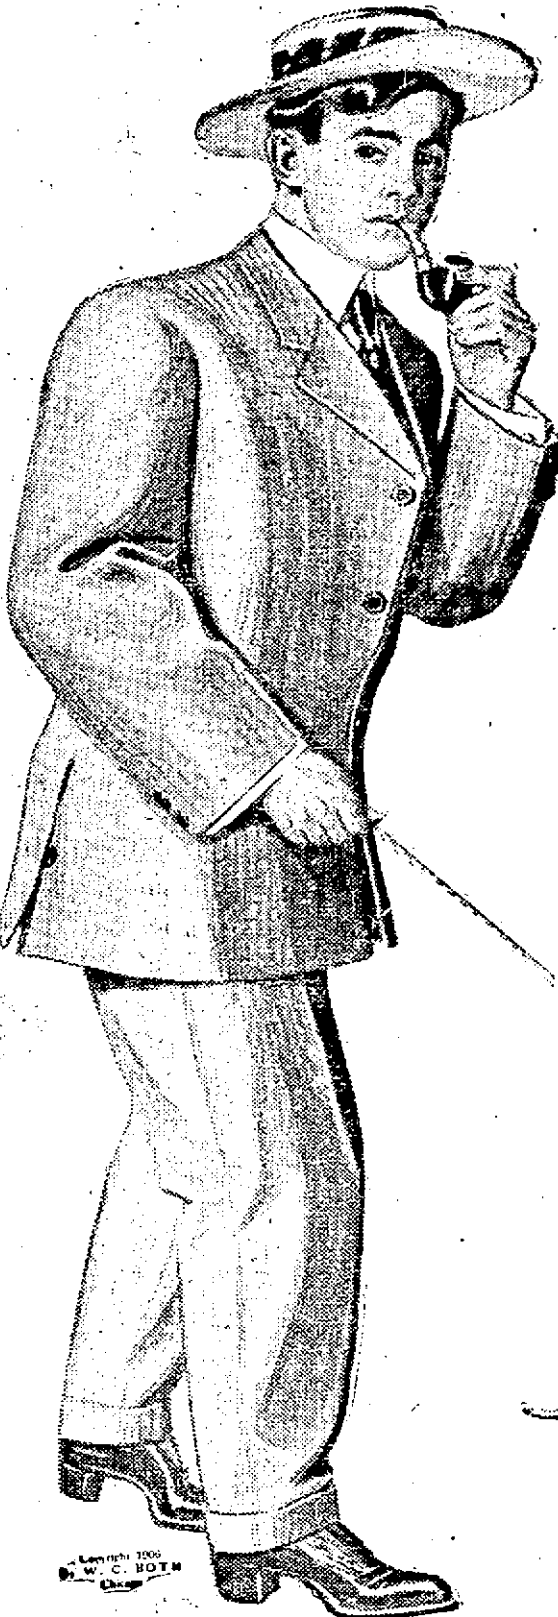

The Bijou is presenting a first  
class vaudeville show this week.

Mrs. Edith Uermoechl, a graduate  
of the La Crosse hospital, will leave  
next Monday for San Francisco,  
where she will act as nurse to assist  
in caring for the victims of the earth-  
quake.

The steamer Clyde, which was  
wrecked above Wabasha during a  
storm last summer, has been raised  
and repaired and is expected to pass  
the city today or tomorrow on a trip  
down river.

Owing to the work necessary for  
the entertainment of their state con-  
vention and the planning and furnish-  
ing of their new club house, it is not  
likely the Elks will give a dance for  
the benefit of the San Francisco suf-  
ferers.

## "A Clean-Cut Looking Young Fellow?"

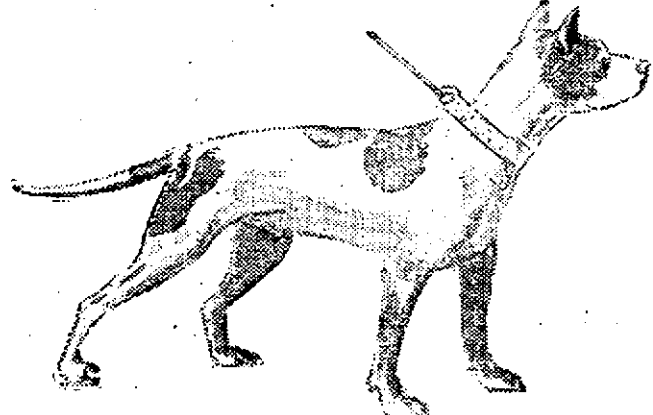

DO THEY SAY THAT ABOUT YOU?

There are three manufacturing tailors of high  
repute in this country who pay particular atten-  
tion to youth's Clothes. From these three we  
have selected the choicest lines of young men's  
suits and overcoats that it has been our good for-  
tune to handle. The styles are fashioned after  
those that prevail at Harvard, Yale, Columbia,  
Cornell and similar institutions, and have a dash  
to them that makes them not only desirable but  
individual--clean-cut. Young men are cordially  
invited to inspect them and we are confident  
their good tastes will be pleased to the utmost.

YOUTHS' TWILIGHT GREY WORSTEDS, Scotch tweeds, chevots, cassi-  
meres and other fabrics in mixed patterns and solid grays and blues, but  
with military skirt, long lapel, deep vents (or without vents if you prefer),  
peg-top trousers. We ask from \$8.50 to \$20.00.

OF THE SORTS OF GIVING.

That the only beauty of charity is self sacrifice on behalf of others is a fact that we do not all stop to consider when we cry "ah-ha," because some wealthy man has given a check of four figures to some good cause. The gift that pinches the giver is the gift that is recorded in red letters in Heaven.

However, a rich man may give what in his judgment is a reasonable amount for a good cause, and he may not feel deprivation in the least, and it is still a good deed, a better deed than if he gave squanderingly and without due regard to the equity of his offering. A big gift by a rich man may be selfishly made, and a little gift by a rich man may carry with it the blessing of Heaven.

We hear too much about the ostentatious giver. Let the rich man give and the papers emblazon his generosity in large type, and it is said that he made a spectacle of his charity. Maybe he did, and maybe he did not consent to the publicity and it was distasteful to him. If he covered notoriety, if he bought the public clamor, he was no better because he gave; if the noise was made because he sought the spotlight with blare of trumpet, he is a cheap mountebank. But if he merely suffered publicity as an unavoidable annoyance, and gave to help the recipient of his largess, his deed was good.

A La Crosse man once went without a new suit all winter in order to help sufferers to whom wealthy men were contributing large sums. He gave in the name of God, or if no Christian, he gave in the name of his fellow men, which Abou Ben Adhem learned was the equivalent of doing in the name of God.

IMITATION SWEETEST FLATTERY.

It seems scarcely a day—as time is measured—that the organs of the monopolies screamed "yellow journalism, sensationalism, freakism" at the Tribune's attractive headlines. So satisfied was that astute manipulator of the Evening Organ that large, comprehensive headlines were a mistake, that the size of the heads in the organ were reduced to the minimum, temporarily.

Now the Evening Common Stock comes out with the sincerest sort of flattery for the Tribune—an imitation of its "sensational" headlines.

Unable to comprehend the wonderful bounds of the Tribune to popularity and public esteem, the mysterious Mr. Gelatt has backed water on his sensational headline argument and comes out in pure and undisguised imitation of La Crosse's most popular newspaper—the Tribune.

But one thing the "splendid aggregation of capital and intelligence" evidently has not discovered, or if he has, that he has failed to attempt to demonstrate—is that it is the tale the headlines tell, not the black type, that has made the Tribune La Crosse's leading paper. Big headlines—such as Mr. Gelatt now seeks to use—with nothing under them other than the mouthings of the trust: satellites and corporationists, will not for a moment attract any attention in La Crosse.

Fearlessness, honesty, frankness, truthfulness and untiring interest and solicitation for the public good is the creed that must regulate what follows big headlines; it must mould the stories the big headlines tell.

These qualities, not possessed by the "private interest" organs, are what has made the Tribune the leading paper, and are what will cause it to continue to grow and prosper.

With the multiplicity of private interests to serve, and different masters to answer to, it would indeed be difficult for Mr. Gelatt to even countenance a creed so broad and daring.

So much for the imitation.

Now comes the deception—one of the many—the "system" whereby the news will be rehearsed and redished in the Morning and Evening or-

gans day after day to save expenses and fool the public into believing both are NEWSPAPERS.

An examination of all and any honest newspapers will reveal that in telegraphic news the dispatch is preceded by the place and date, i. e.:

Kenosha, Wis., April 26.

Now go get a copy of the Chronicle and the Leader-Press, the consolidated organs of all Mr. Gelatt has advocated and "manipulated," et cetera, and examine the telegraphic and clipped telegraphic news and you will find the "date lines," as printed in honest newspapers, have been juggled into the following, e. g.:

Kenosha, Wis.—

It will be noticed the "April 26—" has been omitted.

This, of course, is so the "news" of the Leader-Press can be lifted bodily into the Chronicle and vice versa, the absence of date obviating the work of advancing them. This stale news is worked back and forth, disguised with altered headlines, and palmed upon the public as fresh.

Of course this is not illegal; its merely like a furniture dealer who would revitalize a second hand chair and sell it to you for the price of a new one.

But after all, it may have its beneficial results, in encouraging a spirit of sympathy and friendship.

Dear reader, after the announcement that "Mrs. Sam Jones has given a party," has appeared frequently enough, we are apt to form a friendship for the announcement through long acquaintance.

Did "William Tell"?

It is to be noted American Marines is what settled the San Domingo imbroglio.

The normal regents seem determined that Mr. Pray is due to say his prayers.

A half dozen "scoops" with the whole "swarm of reporters" sick in bed. Goin' some?

By the way, where is Chauncey and the gang; we had almost forgotten them in the whirl of rushing events.

The people who read the Tribune are the people who buy in La Crosse—not the kind who send to Chicago.

That Mexican Plantation La Crosse seems to be merely a "plantation" of La Crosse money, but evidently not all in Mexico.

Voliva may be young enough to gain the money and Dowie's power, but he is not apt to win much respect if he lives a thousand years.

By their every increasing patronage La Crosse's progressive merchants are showing they can appreciate reaching 20,000 people every day through the Tribune.

JUST LIFE

Lime-rick.

There once was a diplomat great,  
Who asked interest at a high rate,  
And then he asked cash  
Under threat of a smash,  
And he got the coin—tho' it came late.

Senator Spooner has replied "to Bailey" on the rate matter.

The Weather Man.

Some days back, as time we measure,

Though it seems to us an age,  
We read with rising pleasure  
That a storm of rain would rage  
Over garden spots and country side,  
Imparting life anew

To all the blossoms nature hides  
Unkissed yet by the dew.  
Then we waited, idly waited,  
For the promised rain to come,  
But the rain it seems belated—  
Or the forecast on the bum.  
And the weather man is nervous;  
He is willing to declyre,  
It was wrong to make the forecast—  
But at that it still is "fair."

The mayor of New Richmond, Wis., has published an edict against profanity. It's well Van Metre is a federal office holder.

Knocking is unnecessary in La Crosse. Things which need knocking are, fortunately, a knock to themselves.

If some of those senators lose out in the next election, they can always get jobs as whitewashers, judging from their approval of the appointment to the Washington postoffice of assistant secretary to the president Barnes, after that Morris affair.

By the way, perhaps some of those regents can explain why La Crosse girls, with ample and superior education, can not get employment in our public schools?

Two bluffs are always better than one quit.

Well, William R. just had to have that money, so there.

Those "News" Items.

An exposure of the methods of exposure is now threatened by the other side in the sensational magazine now on. It is strange this has not been done before. The coal barons have been flooding the country with literature in their interests.—Madison Journal.

Argus-eyed Business.

The consolidation of The La Crosse Chronicle and The Leader-Press is in line with the prevailing tendency not only in newspaper circles, but in other lines of business. In this case the surprising feature is that, since the same party owned both papers, the merger was not made long ago.—Green Bay Gazette.

Becker Commended.

Fuss-and-feathers men think they score by impressing their own importance. They don't. Modern business is argus-eyed. It watches its men keenly, weighs their usefulness, judges by results. Time taken in talk is time taken from work. Modern business uses a stop-watch in the close race for success.—Marinette Eagle-Star.

Like Last Call.

The effort of Sherburn M. Becker, now that he has been elected mayor of Milwaukee, to steer clear of factionalism in making his appointments should be generally commended. Mr. Becker is evidently looking to the future as well as the present and in this respect his attitude is one of which republicans of this county may well take cognizance.—Stevens Point Journal.

MISSIONARY SPEAKS ON NORTH SIDE

Mr. Hans Edward Hangland will conduct a series of meetings in the Lutheran "Trinity" church on Avon street, commencing Sunday forenoon at 10:30.

Mr. Hangland has been traveling for some time in Norway in the interest of the inner mission and also the China mission, and since he came to this country he has constantly been engaged in the work for the inner mission and is known as a very able and interesting speaker.

The meetings will continue during the week.

HENRY ANTHONY PASSES AWAY

A number of relatives and friends of Henry Anthony, formerly of 1337 Wood street, received notice yesterday to the effect that he had died at Reedland, where he went about two months ago for his health.

Henry and his father went out there first and he improved so much that they decided to remain there and the remainder of the family arrived there about a month ago.

Henry had been suffering with tuberculosis, and was only ill about four months. He has a large circle of friends here who will mourn his loss very much.

FALLS INTO CHUTE

Otto O. Wagner, foreman of the coal chute at the north side Milwaukee yards slipped and fell into the chute this morning.

Fortunately the door of the chute happened to be closed or he would have taken a fall to the ground below. He is about today with some difficulty and is nursing several bruises.

SURPRISE PARTY.

Walter Haefner of 726 Caledonia street was very pleasantly surprised last evening by a number of his friends.

The evening was spent with music and games. Dainty refreshments were served and all enjoyed the evening very much. Walter was completely surprised.

Those present were: Misses Dora and Margaret Harris, Lizzie Gage, Josie Orwell, Mayme Shumway, Winnie Elliott, and Minnie Grant and Messrs. Quincy Gage, Leslie Kenney, George Johnson, Fred Kriset, Neil Jamesson, and Walter Haefner.

## BRAVADO FORCES WEST TO PAY \$50

Roasting that he had the money in his pocket but laughingly remarking that the attorneys couldn't touch him with the law and make him pay, Fred West was brought to time by supplementary proceedings before Judge Brindley late yesterday afternoon and compelled to pay not only the amount of an original judgment against him, \$35, but \$15 added costs.

After resisting the payment of a garnishee judgment rendered in justice court by representing that he had nothing coming from the people who were employing him to move a house, West thought he was safe and facetiously twitted Attorney A. C. Wolfe about it. Within 15 minutes papers were served upon him in supplement-

tary proceedings and the defendant was grilled before Judge Brindley. Here he was made to account for every dollar he had taken in recently and all that he had disbursed, finally being made to admit that he had not spent it all. By a clever bit of cross examination Mr. Wolfe finally provoked West to declare that he had a hundred dollars and could show it. Wolfe defied him to prove it and when he pulled out something over \$60 an order was secured from the court compelling him to pay over \$50 of it to satisfy the judgment. There perhaps never was an angrier man in La Crosse county court room than West when he handed over the money to the sheriff.

## LA CROSSE GAVE CHICAGO \$3,000

La Crosse people have given liberally to the sufferers at San Francisco, and due credit has been given the larger giver. It has been suggested, however, that among those who gave small amounts there may have been a greater sacrifice than was made by those who gave hundreds they may never miss.

Discussing the point yesterday, Dr. Wendall A. Anderson, after saying a word of praise for those who have so liberally and promptly responded to the call for help, offered the suggestion that we are often inclined to swell up with pride in our own generosity that the circumstances do not justify.

"For instance," said Dr. Anderson, "in 1871, immediately after the Chicago fire, a mass meeting of La Crosse citizens was called at the court house, and before it adjourned the people of this little city of 10,000 people had subscribed \$3,000, and more was added later. Moreover on the day previous a carload of provisions was sent from La Crosse to Chicago for the sufferers."

"The first subscriptions were made in the open," continued the doctor, "a wealthy and worthy man starting the ball rolling with \$400. He was cheered, and another followed and still another, and the cheering continued. This publicity bade fair to crowd out the contributions of the men who could afford less, until Colonel Woodward cleared the situation by arising and declaring he was going to start a 'poor man's list,' which he would head himself, and the names and amounts in which should remain secret. There was great gratification among the masses when, at the close of the meeting, it was found that the 'poor men's list' aggregated more than the other, and that in it was a subscription by a man whose name was not announced amounting to \$200, while the largest in the public list was \$100."

The man to whom Dr. Anderson had reference as giving the \$200 is said to have been O. S. Wood, father of Walter Woods, city engineer. La Crosse has done splendidly for San Francisco, but one sees that to have equalled the gift of the La Crosse of 10,000 people who gave to the Chicago fire sufferers over \$3,000 and a car of provisions, the 30,000 La Crosse of today must have given San Francisco \$10,000. Let us not wistfully boast of plain duty done.

## PREVENT SECOND DISASTER

(Continued from page 1.)

be on the site of Chinatown.

#### To Prevent Repetition.

San Francisco will be constructed along new lines. In designing the streets they will plan the boulevards and park system so a repetition of the great fire will be impossible.

From all over the nation assurances are coming that all the money needed will be forthcoming upon demand. The cars started this morning with free rides to the ferry and also to outlying districts.

The rents of houses standing have risen sixfold.

#### Drenching Rain.

Rain, almost a cloudburst, this morning drenched the refugees camping in the parks. The sky cleared and the sun shone, but a cold wind is blowing. Six thousand remain in Golden Gate park. Many will be forced to sleep in the open air for months yet. Polling booths are being erected to shelter the homeless.

#### Inner Crust Cracked.

The president of Stanford university says the earthquake was caused by a crack of the inner-crust earth and a recurrence of the throes by which a peninsula is formed and folded. He does not expect it to occur again in many years. He says it had no connection with Vesuvius nor any other

volcano. Stanford will follow the course of the quake and make a scientific investigation.

crip and attendance chart he presented his defense. He said in part:

"Of the total number of graduates of Stevens Point in twelve years, 290, eighty-one of these have been principals or assistants in the four years high schools in the state. If all the schools maintained this high standard over one-half of the teachers and principals in the state high schools would be normal school graduates. There would be, if this gait was maintained by all schools, 530 normal school principals and teachers."

"The system of physical exercises first was established at Stevens Point and measurements followed later, even in advance of the state university."

Continuing, President Pray pointed out a number of improvements he had made in the system of teaching.

At the conclusion of the hearing the normal regents were given a reception by the local committee.

homes on noon trains. The balance will leave on early evening trains.

#### Generous Citizens Ready.

Indications are there will be no difficulty experienced in raising the amount required to make up the deficiency between the state's appropriation and the amount required to buy the site.

During the meeting of the regents at the club this morning L. C. Colman arose to state that the board need not allow the question of price to enter into the choosing of a site. "Pick any site you choose," he said, "we will see to the rest." Mr. Colman's statement conveyed the impression, as it was meant, that public spirited citizens of La Crosse would soon raise the \$13,400 needed to buy the site and there would be no trouble about getting it.

## SHERIDAN HURT IN FALL LAST NIGHT

(Continued from page 1.)

City Tax Assessor Edward Sheridan is laid up at his home with two broken ribs as the result of stumbling and falling down stairs in the dark. It occurred about 3 o'clock in the morning. Mr. Sheridan having gotten up to get a drink of water. Making a misstep at the head of the stairs he fell their entire length. Members of the family came to his aid and a physician was called who found two fractured ribs. Mr. Sheridan will be laid up for a couple of weeks.

John Graham has resumed his duties on the C. B. & Q. after several weeks' layoff on account of sickness.

"I would not take ten times the price I paid for my glasses. I have had several pairs fitted by different doctors but none have given the satisfaction that these do." This is from a letter addressed to me by a patient I fitted 3 years ago. It goes to show what we are doing for our patients in the optical line. If your eyes trouble come and see me. I can prescribe glasses that will affect a permanent cure and dispense entirely with the use of drugs and medicines in the eyes.

## RUBBER MILLS MEN SAVE OTHER PROPERTY

The efforts of the men employed by Manager George S. Andrus of the La Crosse Rubber Mills company on Indian hill, saved the house and other property of E. W. Schultze when his bars was burned near the rubber mills Wednesday with a loss of \$500.

The water supply and fire protection at this point is exceedingly poor. When the fire broke out Mr. Andrus shut down the rubber mills and sent his entire crew to the scene to fight the flames. Their efforts resulted in the saving of the horses and equipment, and of the house and other nearby property. Mr. Schultze is consequently very grateful.

## DEMOCRATS DECIDE ON CONVENTION

The democrats of Wisconsin will hold a convention, at which a platform will be adopted, in the latter part of June.

This decision was reached by the members of the state central committee at Milwaukee shortly before 1 o'clock this morning, after a session that lasted nearly five hours in which the question was discussed at length.

The members of the committee met with county chairman and democratic editors at 8:30 o'clock last night and after debating the convention proposition until 11:30 o'clock a ballot was taken, which showed that the convention men outnumbered their opponents at the ratio of four to one.

The state central committee then went into executive session and after a discussion lasting more than an hour decided to ratify the action of the conference as to holding a platform convention. Under the terms of the primary election law the platform must be formulated by the candidates on the state ticket, so the action of the convention will be merely recommendatory, but it is not believed that the platform adopted in June will be different from the one that will be prepared by the nominees after the primary on Sept. 3, unless there should be a material change in party opinion between these dates.

A committee consisting of Chairman H. H. Manson of Wausau, J. J. Cunningham of Janesville, J. A. Aylward of Madison, George Hilton of Oshkosh, and Albert J. Grundman of Oshkosh was appointed to fix the date and place for holding the convention. Oshkosh and Madison have already put in bids for it, and as Milwaukee will probably also ask for it a lively contest is expected.

The action of the democrats in deciding not to be entirely bound by the new primary law, which will be tested throughout the state for the first time this year is certain to cause considerable discussion.

## MARBLE MARKERS FOR GRAVES OF SPANISH VETS

According to information received yesterday the graves of dead veterans of the Spanish-American war in La Crosse will be the first in the country to be provided with marble grave markers by the war department. The following dead heroes will be honored by the war department markers:

Oak Grove cemetery—Col. M. T. Moore, Corporal Bert B. Bailey, Private Joseph Tuckee, George W. Van Loan, Arthur C. Maseuger, Oscar Karl, Louis Wensole, Valentine Konetzki.

Catholic cemetery—Sergeant Andrew Krebs, Sergeant Frank Mulenberg, John T. Riley, John Spika and George Fisher.

Rev. F. Richmond of Arcadia and Michael T. Cain of Brownsville are also included in the list.

## BANKERS ORGANIZE

A preliminary meeting of bankers for the purpose of organizing "Group No. 7" of the State Bankers' association was held here yesterday afternoon. ## La Crosse Woman is Vice-Pres. of State Spiritualists

Officers of the Wisconsin Spiritualists association in session in Milwaukee for the ensuing year were elected as follows:

George H. Brooks, head of the Milwaukee Unit of Spiritualists, president; Mrs. Catherine McFarlain, La Crosse, first vice president; Mrs. M. Owens, Milwaukee, secretary; W. E. Bristol, Oakfield, treasurer; J. Worthing, Oakfield; Mrs. Julia Smead, Dr. Fred Mehlert, and Mrs. A. Snyder, Milwaukee, trustees.

Milwaukee was unanimously chosen for the next convention, which will be held on the third Tuesday of April, 1907.

Resolutions were passed opposing the attendance of children of Spiritualists at Christian Sunday schools. Other resolutions were passed encouraging the work of genuine mediums and denouncing the false ones.

## OLE HEMMA DEAD

Ole J. Hemma, an old resident of Galesville and the town of Gale, died at the home of his niece, Mrs. O. N. Sagen, in Galesville, Monday.

Ole J. Hemma was a native of Norway, coming to this country fifty-one years ago. His first residence in this country was in La Crosse county, where for a number of years he owned a farm near Mindoro. Later on he removed to Trempealeau county, settling in Hardie's Creek, where he farmed until thirteen years ago, when he retired and moved to Galesville. He built a comfortable home and occupied this as a residence until the death of his wife, and then made his home with his niece, Mrs. Sagen.

## DECIDE CLUB MATTER NEXT THURSDAY

Three candidates were initiated last night.

A piece of residence property located at the corner of West avenue and Mississippi street, has been sold by Anna P. Sutor and W. A. Sutor to L. C. Jenks for a consideration of \$3,500.

## Head Ache Sometimes?

If so, it will interest you to know that it can be stopped with Dr. Miles' Anti-Pain Pills; and without any bad after-effects, and this without danger of forming a drug habit or having your stomach disarranged. They positively contain no opium, morphine, cocaine, chloral, ether or chloroform in any form. Dr. Miles' Anti-Pain Pills relieve pain, and leave only a sense of relief. The reason for this is explained by the fact that headache comes from tired, irritable, turbulent, over-taxed brain nerves. Anti-Pain Pills soothe and strengthen these nerves, thus removing the cause. They are harmless when taken as directed.

"We use Dr. Miles' Anti-Pain Pills for the cure of headache, and we think that there is nothing that will equal them. They will cure the severest spell of nervous or sick headache in a very few minutes. I am of a nervous temperament, and occasionally have spells when my nerves seem to be completely exhausted, and I tremble so I can scarcely contain myself. At these times I always take the Anti-Pain Pills, and they quiet me right away. It is remarkable what a soothing effect they have upon the nerves."

All money collected by Elks lodges will be forwarded to the grand lodge and will be under the care of the supreme officers. The local Elks' contribution of \$50 has been forwarded, by secretary Lefe Holmes.

## CORNISH POINT LEAD AND ZINC MINE PROPERTIES

You may be unfamiliar with the lead and zinc resources of Grant county, Wis., and it is proper that you be informed of what some of the mines have done and are doing, and we will cite as illustrations, the Empire and Enterprise, many others having become dividend-paying, but for lack of space will not mention and the above will suffice.

The Empire is now paying dividends averaging 500 per cent on their capital stock of \$30,000 and their shares are quoted at \$900.00. The Enterprise is paying some less and their shares are quoted at \$700.00 each. The best posted mining men of the country assert that this is to become the most important lead and zinc district in the world; indeed the development and discoveries are gigantic.

The property to which we desire to particularly call your attention at this time is what is known as the Cornish Point property consisting of 80 acres on the farm of Louis Polander, and the 50-acre tract owned by John Wolf in the towns of Potosi and Harrison, one and a quarter miles from Rockville, and 4½ miles from Potosi on the C. B. & Q. Ry. Through those lands extend four separate and distinct lead ranges, many of which have been worked to the water, but for lack of funds operations ceased and left remaining large deposits of this valuable mineral and also large deposits of the famous zinc ore, which has created fabulous wealth in this district. Upon those properties are two shafts, one of a depth of 85 feet, and one of a depth of 60 feet. Another is being sunk and will be 50 or 60 feet deep ere this reaches you. A level or tunnel is also being worked on, which is said to be the second one of its kind in the entire district. If it proves to be a success, as we predict it will, the necessity of an expense of about \$15.00 per day, will be obviated in hoisting and pumping. It can hardly be said that those properties are prospects, as the indications and conditions of them are such as to warrant the most skeptical that lead and zinc abound in great quantities. On these properties there are two mining propositions and therefore when you become interested in Cornish Point Lead and Zinc Co., you become interested in both.

This company is incorporated under the laws of the State of Wisconsin, and the capital stock is \$25,000, a part of which is now for sale, at the par value, \$1.00 per share, 25 cents per share to accompany the order, the remaining 75 per cent, subject to call of the board of directors, as required from time to time. The company has no liabilities, and starts out with a clean sheet and every dollar of the proceeds of the sale of stock will be used in the development of those properties and the expenditure of such equipment as may be required to subserve and promote the best interests of all concerned. Those propositions are offered as reliable, straight-forward, business propositions, and operating and development of the two properties under one management is one of the very important features indicating the economy and conservatism of the guiding hands of the company.

You are invited to investigate the property and to visit Potosi, Rockville, and the surrounding territory in which you will find we are justified in making the statements and predictions we do. In corresponding, address the company, and if you will notify us in advance we will endeavor to meet you and to do what we can to interest you while in the district.

Yours truly,

GIVES DETAILS OF THE  
ENTIRE TRANSACTION

Method Employed for Years

Was Simply Techni-  
cal Nature

I feel that there is an explanation due as there have appeared in some of the papers of the city articles in reference to a pension claim of Mrs. Mary Redding, widow of Thomas Redding, who died October first, 1903. The claim was filed by me November 9th, 1903 and allowed January 27, 1904, total time two months and eighteen days. Any one having any judgment or knowledge will know that this claim was properly presented or it could not have been completed and allowed in so short a time. It was very complicated and extremely difficult to get the required evidence. I took this claim by solicitation and after the conditions were talked over with Mrs. Redding and her niece, Miss Sarah Mullaney, who came here to care for her aunt (and also to attend Prof. Toland's college.) I presented fully at the time the conditions of the claim and what would be required either in taking the claim in my own name as her legal attorney, when the fee would be \$10 which would be paid to me by the pension bureau upon the allowance of the claim and also a postage fee of 50 cents, making in all \$10.50. And it would be for her to look up and furnish me with all testimony and records properly executed at her own expense which might bring the cost to her of six or eight dollars more; or by the other method, which was that she could retain the claim in her own name, and I would be her advisor, the same as though the claim was in my name. I could then do all the legal notary work and go around and interview and take the required evidence, as I could not do it made her attorney, some one had to do this as she was not able to attend to it herself. This course would save her an expense of six or eight dollars. Mrs. Redding and Miss Mullaney thought this the best way, saying that they would pay me the fee of \$10.50 just the same, which they did, upon the allowance and payment of the claim. They also paid me an additional \$2 for going after and executing eight affidavits, 25c each, total in claim \$12.50. She paid \$1.50 for one affidavit from elsewhere, had I charged her this fee, the eight affidavits would have cost her \$12 instead of \$2.

Upon the closing up of the claim both Mrs. Redding and Miss Mullaney expressed great satisfaction with the results so quickly obtained and in the manner of fairness and attention paid to them. As Mrs. Redding was infirm, feeble in mind and body, and could not get away from home to come to my office, she sent for me repeatedly to come to her home in the southern part of the city. I charged her nothing for going there five or six times.

It appears to be out of spite and

jealously, which is never normal in some persons, but always vicious and at its height, it was discovered that by the pension laws I was not entitled to the \$10 fee, as I was not her acknowledged attorney. The omission of placing my name in her application blank was the cause of my not being her acknowledged attorney. So they went to her and insisted and to use her own words, “Made her file a complaint against me” that she had paid me the fee of \$10. Also please note that she does not read or write, and she said, which I have witness to, that the complaint was made against her own free will, as she desired to pay me for my work which I had done for her in obtaining her pension. In time the pension bureau wrote me of the complaint, I told them frankly that Mrs. Redding had paid me the fee of \$10 and if it was improper I would refund the same to her upon their notice. Later the notice came and I paid it back to her. Let me say right here that this been carried on in this city for some fifteen years as I am told by persons who have done and are doing pension work, and this is the first ruling known against it. Now this is a true statement of the case in which I have “squared” myself as the Chronicle calls it in their issue of the 20th. But it is not as the article in that paper states, that I have charged her an additional \$10 in securing a pension for her. That statement is absolutely false. I repeat again that she paid me a \$10 fee, which I have returned to her, and that is the only fee which I received in the claim, as the pension bureau did not pay me anything in any manner. All that I received for obtaining the claim was \$2.50 notary and postage fee.

This came as represented in the papers, which seems to come from persons who have not got at the truth, increases my desire to make it plain to the public, and especially to the Wilson Colwell Post. Respectfully,  
O. S. SISSON.

## BELIEVE EDUCATOR MURDERED HIS WIFE

Cambridge, Mass., April 28. — The Cambridge police have issued a warrant for the arrest of Erich Muentner, an instructor in German at Harvard university, on a charge of murdering his wife in this city about two weeks ago. It is alleged that Mrs. Muentner's death was caused by arsenic. The body was taken to Chicago on April 17, but the case was not made public until last evening.

Muentner was born in Germany. He formerly taught school in Chicago, and before coming to Harvard less than two years ago he was an instructor at the University of Kansas at Lawrence, Kan.

## STAGE AMUSEMENTS

In "Happy Jack" Manager, U. D. Newell presents a character here, who will win for E. E. Kidder's play, "A Jolly American Tramp" an enviable reputation, when that comedy success is presented at the Lyceum Theatre on Sunday, April 29, matinee and night. No more quaint conceit has been offered the play going public, yet underlying all the bombastic pretensions that are made by the tramp, there will be found a heart that is in its right place. Flashes of wit fall from the lips as gently as do the rain drops in a summer shower, and touches of pathos illumine the pathway to duty of this hero in rags that simply appeal to that well spring of emotion, the heart, in every one of

his beholders. Seats for the theater or box parties can now be reserved.

Murray and Mack, the comedians, will be seen here next week, Tuesday, May 1st, at the La Crosse Theater in their new vehicle "Around the Town." This is the most pretentious organization in regards to scenery, costumes and expense of supporting company that Murray and Mack have ever attempted. "Around the Town" can be described as a hodge-podge of musical numbers, specialties, and general merriment. Murray and Mack will introduce some new novelties in the fun making line and are going to resurrect one of their old successful features, which has laid dormant for a year or two—their extremely funny boxing match. Among the many novelties and ensemble numbers can be promised one in the third act that will be a real sensation. It consists of twelve girls—six made up as babies and six as Buster Brown boys. The boys swing the girls in six swings. The swings are hung right down near

all boys always after they have tried it once. It is a matter of history that nowhere that Pillsbury's Best has ever gained a foot hold, has it ever been crowded out by a competitor. That is because the women insist on having it.

In La Crosse the sale of Pillsbury's Best is increasing in a marvelous manner. The brand, for certain reasons, was never advertised to any extent, and although it was being sold at the same price as ordinary flour the impression was allowed to go forth that it cost much more money.

Since this mistaken notion has been corrected through the medium of advertising, the women of La Crosse have discovered that in addition to being the best flour in the city Pillsbury's Best is also the cheapest flour because a given quantity of it produces much more bread and more nutritious bread than does the same quantity of ordinary flour.

It is a feather in your cap to smoke Red Feather.

## OAKLAND IS AFTER THE BIG BUSINESS HOUSES OF SAN FRANCISCO

Los Angeles, April 28.—A long-distance telephone message to this city from a correspondent of the Associated Press at Salinas, 120 miles south of San Francisco, states that three more very heavy earthquake shocks were felt there Thursday night, one at 5 o'clock, another at 9:50 and the last at 2 o'clock a. m. The shocks lasted about four seconds each, but so far as known did no damage.

San Francisco, April 28.—The question of the resumption of wholesale business in San Francisco was taken up at the meeting of the citizens' general committee yesterday. Thomas McGee said that wholesalers in large numbers were settling in Oakland, and that there was great danger that this settlement might be permanent, those who applied for locations there being required to take out leases extending through five years. The mayor said this movement must be stopped at all hazards, and that every facility must be afforded wholesalers to open temporary quarters in San Francisco. The only limitation placed by the authorities was that the buildings should be no more than one story in height. The erection of permanent buildings must await the framing of the new building laws.

**Matter of Retail Business.**  
EX-CHIEF of Police Wittman, of the committee on resumption of business, said there were now some 300 retail stores of various descriptions in operation in San Francisco. The matter of obtaining stocks for these stores was still a serious one. Traffic Freight Manager Sprague, of the Southern Pacific, had informed him that 1,250 loads of cars now stood in the yards of the Southern Pacific, but he was also informed that the unwillingness of some of the warehouses to open their doors for the delivery of goods was due to the fear of further military confiscations. Mayor Schmitz informed him that General Greely had issued an order that there should be no further confiscations under any circumstances.

**Relief Received at Frisco.**  
Chairman Phelan of the finance com-

mittee of the relief and Red Cross funds, gave out a complete statement of money contributions received for the relief of San Francisco up to and including April 26. The list shows the grand total of \$4,631,088, of which \$213,950 was contributed locally.

**Missing Diplomats Heard From.**  
The French, Italian and Danish consuls at San Francisco, who were reported as among the missing, have all been heard from. They had temporarily become separated from their friends.

### WIND BLOWS DOWN WALLS

**Sight-Seeers Have Narrow Escapes—Relic-Hunting Is Profitable.**

San Francisco, April 28.—The strong wind that blew over the city Thursday afternoon and yesterday morning carried to the ground a number of blank walls that had been left standing. The falling of these walls was an element of danger to the great number of people who crowded into the city to view the ruins. The walls of the building at the northeast corner of Stockton and Sutter streets, immediately behind the Pacific Union club, fell with a terrible crash. A number of pedestrians and a party of men and women in an automobile had difficulty in getting out of the way of the shower of bricks.

The outer wall of the building at the corner of Market and Geary streets, where was once the Richelieu saloon, fell outward just as hundreds of people from the Oakland ferry boat were wending their way along Market street. Several persons were struck by the scattering bricks, but no one was seriously injured.

Relic-hunters are reaping a harvest digging among the ruins of the Japanese and Chinese bazaar stores, particularly in the district formerly inhabited by the Chinese. Hundreds of persons from across the bay have visited these ruins, where assiduous stirring of ashes yields profits that are more than worth the labor. Vases of Satsuma and Cloisonne ware, bronzes, bronze ornaments that in the days before the fire commanded high prices, are being carried away by the relic hunters in large numbers. Six-shooters of the kind formerly carried by the hired assassins of the Chinese district are being found in great quantity.

## CRUELTY OF A GERMAN PLANTER

Berlin, April 28.—The trial of a German planter named Mismahl, owner of extensive estates in German East Africa, on a charge of inflicting grave bodily injury on negro employees, has been concluded here. The evidence showed that the natives of the district who were employed on the plantations were frightfully mistreated by Mismahl, who had them flogged mercilessly, lashing the negroes on their bare backs until they bled and became unconscious from the terrible punishment.

It was also shown that when the contracts of negroes to work for fixed periods expired Mismahl detained them in slavery, forcing them to work by flogging them. Mismahl's attorney, in defending his client offered evidence to show that this treatment of natives is common throughout the colony and that Mismahl did only what all the German settlers in the district do. The court recognized these extenuating circumstances and merely sentenced Mismahl to pay a fine of \$25.

## SWALLOWS POISON THEN SEEKS TO LIVE

New York, April 28.—A young woman who gave her name as Mrs. Ivan Dumont swallowed two poison tablets at the Hotel Belvedere. It was said at the hotel that she took the poison by accident, but she was held at Roosevelt hospital as a prisoner on the charge of attempted suicide.

Mrs. Dumont has been a guest at the Belvedere for two or three years. She came from New Orleans. She telephoned from her room to the office of the hotel to say she had taken poison and was in urgent need of help. Physicians ordered her removed to the hospital. It was said that her condition was serious.

## PARDON FOR DETECTIVE WHO KILLED AN INTRUDER

Springfield, Ill., April 28.—Dan Kipley's application for a pardon was heard by the state board of pardons at Joliet on April 17 last, and the board now has the case under advisement. E. A. Shively, secretary of the pardon board, said upon his return from Joliet, where he attended a meeting of the board, that a decision in the Kipley case probably will be rendered within thirty days.

Dan Kipley, who is a nephew of the late Chief of Police Kipley, of Chicago, is serving a sentence for the murder of a man named Hopkins. The slaying occurred in the apartments of a woman known to the police as "Diamond Jim." Kipley's pardon was based upon the ground that Hopkins was a dangerous character and that the shooting was in self-defense.

## VOLIVA SEEMS TO BE LOOSING HIS GRIP ON ZION CITY

Chicago, April 28.—When John Alexander Dowie goes to Zion City, it is declared, he will be welcomed not only by Mrs. Dowie, who has asked and obtained his forgiveness, but by many former adherents of Voliva. Those deserting Voliva, like Mrs. Dowie, are now said to believe that the serious charges against the "first apostle" are absolutely unfounded, and that he is being persecuted. Gladstone Dowie, on the other hand, is represented as greatly displeased at his mother's action in seeking the pardon of the "first apostle," and is threatening to leave the United States for Australia, where he plans establishing a big sheep ranch.

Biding his time at the Auditorium Annex the "first apostle" awaited signs of defection in the Voliva ranks. Within the last few days he has been visited by scores of people who were once firm supporters of the new order in Zion City, but who are now denouncing Voliva as a usurper and some of his aids as self-seekers who are trying to feather their own nests.

## MERCURY A DECEPTIVE TREATMENT

Mercury and potash are very deceptive treatments and the blood poison sufferer who depends on them for a cure is sure to be disappointed. These minerals will remove the external symptoms and shut the disease up in the system for a while, but the trouble will surely return and the loathsome symptoms of sore mouth and throat, copper-colored spots, falling hair, sores and ulcers etc., will be accompanied by the disastrous effects of the treatment. The continued use of these strong minerals will completely ruin the health and weaken the system to such an extent that the original disease often becomes incurable and sometimes fatal. Mercury destroys the gastric juices, producing chronic dyspepsia, cause mercurial rheumatism, salivation, and where they are taken in large quantities cause necrosis or decay of the bones. S. S. S. is the only remedy that can cure Contagious Blood Poison surely and safely. This remedy of nature, made entirely of roots, herbs and barks, antidotes and destroys the powerful virus of the disease and by purifying the blood of every particle of the poison and enriching and strengthening this vital fluid it removes every symptom and leaves the body in a strong, healthy condition. When the blood has been purified with S. S. S. the cure is complete, and not one vestige of the poison is left for future outbreaks. Do not waste valuable time, and damage your health with the mineral treatment, but cure your case with S. S. S., an absolutely safe remedy. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral. Book with instructions for self treatment and medical advice without charge. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

# OPERATORS ABOSLUTELY REJECT PROPOSALS OF MINE WORKERS

New York, April 28.—The anthracite mine operators, through their sub-committee of seven, at a meeting here drew up a reply to the latest proposition of the mine workers for an adjustment of the existing difference in the anthracite fields, in which they refuse to modify their position, heretofore announced. The operators call upon the miners to renew for a period of three years the award of the anthracite strike commission, or else to accept the operators' proposition that the strike commission arbitrate the question as to what changes, if any, shall be made in the scale of wages fixed by the commission in its original award. The miners have heretofore declined this offer.

**Takes Issue with Mitchell.**  
 Addressing President Mitchell and others of the miners' sub-committee the operators in their reply say: "We observe that you reject our proposition of arbitration by the strike commission. You speak of it as a suggestion that 'we first arbitrate to ascertain whether there is anything to arbitrate, and then restrict within narrow limits the scope of the investigation.' This statement of the proposition is erroneous. Our offer was to submit to the members of the strike commission the question whether any changes in conditions have occurred since the award of the commission requiring that the award should be so modified as to wages and adjustment of complaints, and, if so, how it should be changed."

**Stands by the 1902 Award.**  
 "You will observe, therefore, that your statement was decidedly inaccurate. This proposition was in accordance with the view which we have constantly urged—that the award of the commission should be deemed conclusive as to any facts or issues within its scope, and that any further arbitration should be supplementary to that award rather than a retrial of all such facts and issues. It is clear that this procedure would tend to dignify and strengthen the process of arbitration, rather than, as you suggest, bring it into disrepute and ridicule." The latter result would follow if arbitration should never be regarded as final but simply as a basis for further endless controversy.

The operators object to the proposition that any agreement made "continue for a period to be mutually determined." They insist that the duration of the agreement should be agreed upon first, and that it should be for at least three years, and not expire during a presidential election year. With reference to the increase asked the operators say it seems to be asked on the presumption that wages in the anthracite mines are unduly low. The operators call attention to the fact that the anthracite commission declared that wages in that region were not unduly low even before the wages were advanced in accordance with that commission's award.

They add that it is a fact easily provable by state official reports that anthracite wages are much higher than bituminous wages, and call attention to the fact that bituminous coal is in competition with anthracite in the same market. Then they declare that the increase in wages would mean an increase in the cost to the public of anthracite of 26 cents a ton, with the sliding scale; that without the sliding scale it would mean an increase of cost of production amounting to the aggregate to \$5,100,000 a year, and that the operators could not afford to pay the increase as their profit—that of the largest companies—is less than 3 per cent, without interest or royalty.

Therefore, the operators say, they see no way of paying this \$5,100,000 "without imposing additional burdens upon the coal consuming public." Again referring to the increase of cost involved in the U. M. W. proposition the operators say that, with the sliding scale, the aggregate increase will be \$12,000,000. Whatever increase of price there has been in anthracite in the market since 1902 has been, the operators say, absorbed by the increased wages granted by the strike commission, and that commission's decision has not been of financial benefit to the operators; consequently there has been no increase of profits upon which could be based a claim for increased wages.

# POLICE MAKE A RAID AND HOUSES OF FRENCH LEADERS ARE SEARCHED

Paris, April 28.—The widespread labor agitation took a dramatic turn when the police executed a series of wholesale searches designed to unearth an extensive plot against the public security. The searches included the offices of branches of the labor federation and homes of the labor leaders, prominent royalists and Bonapartists, and also a number of anarchists. The suspects among the royalists and Bonapartists include the heads of several aristocratic families, among them Count Durand de Beauregard, Count de la Roche, General Baron de Tardel, M. Baccanier, president of the royalist advance guard, M. Thonvenot (an intimate friend of Prince Louis Napoleon) and Maj. Penillout (formerly commander of the imperial guard), while the laborites who were subjected to search include the conspicuous heads of the movement planned for May 1.

**Royalists Have Been Implicated.**  
 The ostensible purpose of the searches was to discover if encouragement had been given to rioting in the mining district in the north; but the authorities expected at the same time to uncover the entire plan of the present labor agitation, including any menacing features of the demonstration which is to take place May 1. The searches were operated simultaneously early in the morning. The results in many cases were negative. There is, however, official authority for the statement that documents were received which proved that royalists and Bonapartists intrigued with the labor leaders and liberally financed the revolutionary strike movements. The labor federation has refused to hand over its books to the police.

## GOOD REASON FOR OUR OPTIMISM

New York, April 28.—R. G. Dun & Co.'s Weekly Review of Trade says: By their magnificent response to the needs of the earthquake sufferers the American people have not only given further evidence of the vast resources of the nation, but displayed qualities of heart and spirit that provide new reasons for optimism regarding the future. Weather conditions are favorable for retail trade and building operations, while the crop outlook is bright on the whole, although some sections report delay to planting on account of excessive moisture, and there is much complaint regarding the scarcity of labor. Manufacturing plants are working to their full capacity in the leading industries, especially iron furnaces and steel mills, and there is little idle machinery at footwear factories or textile

mills. Railway earnings thus far reported for April surpass last year's by 8.2 per cent., and foreign commerce at this port shows a gain of \$283,619 in imports and a small loss of \$283,619 in exports, as compared with the same week of 1905.

Failures this week numbered 215 in the United States, against 204 last year, and 20 in Canada, compared with 15 a year ago.
